

Data sheet – Wireless charger

The Qi induction charger lets you wirelessly recharge your smart insoles. You just have to place it inside your shoe equipped with a smart insole.

Good to know

This charger is compatible with any Qi device.

TRAXxs chose a slow recharge profile in order to optimize battery life: a full recharge takes between 4 and 6 hours.

Do not recharge your insole inside an ATEX zone.

Indicator light

A flashing light means that the charger is correctly positioned inside the shoe and on the smart insole, and that it is charging.

Product description

Casing: polycarbonate plastic

Mains adapter (supplied): 5V/2A

Maximum power for induction charge: 5W

Stand-by consumption: 0.4W

Consumption during charging: 1.2W

Product reference	Width	Height	Length	Weight
XSC_001	6 cm	6,5 cm	11,5 cm	200 g

Maintenance tips

Unplug the charger from the outlet before cleaning.

To clean the charger, wipe it out with a damp cloth. Never immerse the charger in water.

Environment

Special waste handling may be required. For more information, contact your local authorities.

Charger Product can be disassembled for material recovery.
